# THANK YOU TO VICTORIA UNIVERSITY MELBOURNE

**Prof Dennis Hemphill and Team at the  
NZ Institute of Sport Graduation 2010**

**O**ur heartfelt thanks and gratitude to Mr Andrew Holloway - Vice President International, Prof Dennis Hemphill - Head of School, Sport & Exercise Science, Debra Taylor - Associate Dean International, Christina Magri - GM International Development & Michael Hamel-Green - Dean Faculty of Arts, Education & Human Development, and the rest of the staff at Victoria University, Melbourne.

On behalf of the New Zealand Institute of Sport – staff, students and parents – we wish to acknowledge publicly the tremendous support we have received from Andrew Holloway and the team from Victoria University following the 22nd February Christchurch earthquake.

The immediate contact and concern shown by Andrew and

his team made us feel comforted in our time of need, given all of our delivery sites were located in the heart of the CBD. With many education institutions severely compromised and/or unable to continue with learning programmes, we are pleased to announce that we are now able to offer our programmes outside of the CBD.

Given the challenging circumstances, we have been fortunate to receive both moral and emotional support from Victoria University. We recognise your incredible generosity in providing teaching resources, practical equipment and other essential items vital to our reopening.

We applaud and are sincerely thankful for your immediate and unqualified assistance to a neighbour in need. Through your words and actions, you demonstrate a people first ethos.

We are proud of our association with Victoria University and we look forward to hosting many of your staff and students, returning our thanks in New Zealand.

**John Fiso - Chief Executive  
New Zealand Institute of Sport**
